

HUMAN TABLE FOOTBALL

Kick off your event with our Human Table Football. This life size game of Foosball is great for team building, corporate events and family fun days. The Football game is 5 aside so enter the pitch with your team, choose your position and let the fun begin. Players on the same bar must move left and right together to move across the Football Pitch. Defend and attack as you try to set up your striker to score those all important goals!

Our Human Table Football is played using bars, not ropes so you really do get the authentic feeling of the Human Table Football game. The walls on our Inflatable Football pitch are higher than some pitches to ensure the ball stays in the pitch and in play for longer ensuring your game play is at its best.
