

MOBILE CLIMBING WALL

The Mobile Rock Climbing Wall is one of our feature activities. It's big (7.5m tall), bold, challenging and provides an adrenaline rush for guests at any event. The Climbing Wall is suitable for adults and children (minimum and maximum weight limits apply), experienced climbers and those with little or no experience.

The Climbing Wall is used by four rock climbers at one time and with authentic feeling grit and granite climbing holds, you can be sure you are experiencing the closest thing to real rock.

- **Automatic Belays** – The climbing wall has a double piston, automatic belay system to control the decent of each rock climber. The auto belay system ensures each rock climber descend steadily and safely.
- **Safety Equipment** – We provide all rock climbing safety equipment for our climbing wall. All climbers wear climbing harnesses and helmets.
- **Quality Service** – Our Climbing Wall is supervised by our operators, we have Public Liability Insurance and can provide risk assessments upon request. Our professional staff are smart in appearance and wear branded uniform (we can be unbranded if you prefer).
